Experience

2022

BIWOCO

Can Tho city, Vietnam

Responsible for developing and maintaining backend services using FastAPI and MySQL, ensuring efficient database management and secure authentication. Focused on integrating third-party APIs, optimizing performance, and building scalable applications.

2022 - 2023

GEO System Solutions

Ho Chi Minh city, Vietnam

Developing and maintaining full-stack web applications using React with Material UI and Ant Design for the frontend, and Express.js with Node.js for the backend. Focused on building user-friendly interfaces, optimizing performance, and ensuring seamless API integrations.

2023 - Present

Freelance Website Developer

Ho Chi Minh, Vietnam

Building fully functional and responsive websites for management, e-commerce, blogs, and more using React, Next.js, and Express.js with Node.js. Focused on delivering high-quality web solutions, optimizing performance, ensuring seamless user experience, and implementing SEO best practices to enhance website visibility and ranking.

Education

2018 - 2022

Computing Bachelor Degree

Greenwich University, Can Tho, Vietnam

Gained a strong foundation in computing, software development, and database management. Focused on web technologies, algorithms, and system design, preparing for real-world application in web development.

Projects

2022

HOME ELECTRICITY CONSUMPTION MANAGEMENT SYSTEM

BIWOCO

Developed a system to track daily electricity consumption with interactive charts. Alert system to notify users when consumption exceeds a predefined threshold.

2023

ATTENDANCE MANAGEMENT SYSTEM

GEO System Solutions

Developed a web-based attendance management system allowing employees to clock in/out, managers to track attendance, and automate payroll calculations based on attendance records. Export feature to generate detailed reports in Excel format.

2023

DAILY MESSAGE WEBSITE

Freelance Website Developer

A small-scale project designed for marketing campaigns, displaying a unique daily message for users upon visiting the website. Managed hosting and domain services for clients.

2024

E-COMMERCE WEBSITE

Freelance Website Developer

Developed a fully functional e-commerce website where users can browse products, place orders, and manage their carts seamlessly. Comprehensive order and product management system for admins.

2024

BLOG WEBSITE

Freelance Website Developer

Built a simple yet effective blogging website for marketing campaigns, where users can submit posts and admins can review, approve content.

2024

STORE MANAGEMENT SYSTEM

Freelance Website Developer

Developed a comprehensive store management system featuring employee attendance tracking, payroll calculation, and human resource management. Implemented sales invoice and receipt management functionalities to streamline business operations.

2025
